

Thank you for your interest in RV space at our GDCA 2010 National Specialty in Pine Bluff. As you can see from the information below (taken from order form), there are 80 RV spots at the hotel/show site. According to the information we have received, we have not had more than 50 RVs in the last few years so there should be plenty of space. We have plenty of spots for those who do not need electricity or water if we should have more than 80 RVs (highly unlikely).

The entire RV area is right next to the show site and no city streets will have to be crossed. Water/Electricity are both available and there is a dump site in the parking lot. The RV site has a good-size field of grass adjacent to the RV Parking, plus there is plenty of grass around the show and hotel site. The show site also has showers/bathroom available for those staying in the RVs.

Everyone will have to pay the fee below whether or not they use any of the hook ups or services. I will need to know if you need electricity and what AMP. I do not need to know the size of your RV because the hook ups are portable and we can place them where we want in order to make room for everyone.

I have handled the RVs and grounds at the Sooner State Kennel Club all-breed show for several years. We will be visiting Pine Bluff during the all-breed show in February where they typically fill up with RVs. During that trip I will get a first-hand look at how things will lay out and also visit with their RV Chair to get an idea of any issues to expect.

If you would like to reserve an RV spot with a credit card, please go to the GDCA Store at <http://www.store.gdca.org/2010GDCANational.html>. OR if you would like to write a check, please complete the order form and send it with a check to Sid Levin, Treasurer, GDCA SCDIV, 22687 Forest Ridge Drive, Lakeville, MN 55044. Make checks payable to GDCA South Central Division.

I look forward to welcoming you in person to our 2010 National in Pine Bluff. See you then,

Mike
